

Outcomes and Opportunities

What's to be gained from meeting with citizens, sharing information and listening to their input? What are you hoping to learn? What do you hope citizens take away from the dialogue? What outcomes would you like after completing these community conversations?

Pitfalls & Problems

In planning for community conversations, what are the potential problems we'd like to avoid? If we're really trying to hear from citizens and learn from them, what factors could get things side-tracked?
